Commissioner for Patents
P.O. Box 1450
Alexandria, Va. 22313-1450

Sirs,

Enclosed is a check for \$750.00 towards a utility patent on a golfing device that I have perfected over the years. Being crippled with a love for the game brought about the invention for which I seek protection. I think it works better than all the other contraptions (initial search). I hope my video and photos supply the details you require for your determinations. You may Email (see above address) me for further information if you wish.

Sincerely

Byron R. Wilson III
